Project description

Rytrme api python

Easy way to handle the rytrme API with python

Official Rytr-me page: <https://rytr.me/>

Official Rytr-me git documentation: <https://github.com/rytr-me/documentation>

To get started

```
pip install rytrme-api-python
```

Next

```
from rytrme_api_python import get_text_from_rytr_me_api
```

Main function

🗨 We want your feedback on Python Packaging.

All attributes with basic parametrs:

`api_key=<"YOUR API KEY">` - required

`language="🇺🇸 English"` - language in which the texts will be generated - **change optional**

`tone="Casual"` - tons in which the text will be - **change optional**

`use_case="Blog Section Writing"` - type of text that will be generated - **change optional**

`input_contexts = {"SECTION_TOPIC_LABEL": "Your topic", 'SECTION_KEYWORDS_LABEL': "Your keywords"}` - dictionary with your parametr, more information below - **required**

`variations = 1` - number of texts in response - **change optional**

`user_id='USER1'` - "For userId you need to supply user ID from your database, eg: primary key for users database table." - **change optional**

`formats='html'` - html or text - **change optional**

`creativity_level='default'` - fault | none | low | medium | high | max - **change optional**

Example of use

```
input_contexts = {"SECTION_TOPIC_LABEL": "Role of AI Writers in the F
response = get_text_from_rytr_me_api(api_key=<"YOUR API KEY">, input_
print(response)
```

response (list with dictionary):

```
[{'text': '<p>AI writers can help to generate content ideas at scale.
```

If you want to write a blog section in English, the only parameter you need to complete is the `input_contexts` above

If you want to write something else, change use-case and complete the appropriate dictionary
